PRODUCT BROCHURE 2026

WELCOME

Welcome to our new TJ Golf & Leisure Ltd and FMW Distinct Manufacturing Ltd Brochure.

For 2026 TJ Golf and FMW Distinct (our sister company) will be merging their brochures into one comprehensive catalogue. TJ Golf distributes prestigious brands such as Par Aide, Standard Golf, and Patisson to name but a few. With FMW Distinct's manufacturing background, grants it the ability to produce its own affordable products in house. This offers us a great deal of flexibility in our approach to our customer's requirements. We also have a design and print studio for our signage, logo'd flags, tee markers and other personalised products. We offer a wide range of workwear which can be embroidered with your company logo. We supply many clothing brands from Portwest, Henbury and Himalayan to Helly Hansen, Blåkläder and Dewalt, along with other brands and PPE.

We are based in the West Midlands and distribute our products nationwide. Between the two companies we have a wealth of experience, TJ Golf has just had it's 20th year anniversary and FMW Distinct was established in 1993.

Please feel free to contact us or our Northern based Area Sales Representative directly with any enquiries. Alternatively, orders can be placed via one of our approved distributors or through our website.

We hope you will find what you are looking for in our brochure, whether it be golf course accessories, range mats and accessories, greenkeeping tools or workwear.

Mow Over Broken Tee Collector

Our new mow over broken tee collectors which double up as tee markers are manufactured from impact-resistant, black plastic. They are the same diameter as a standard holecup meaning customers can use any holecutter to cut the hole before lowering the unit into the ground. Being mow over there is no need to remove these when the grass is being cut and the bar on the inner unit allows for easy emptying. There are drain holes which allow water to drain from the inner cup. The standard version has a sticker with "Broken Tee" text next to a broken tee symbol. They are available in Red, Yellow, White, Blue or black but can also be personalised with yardage or your logo.

Pick Cup

Pick Cup Ball Retrieval System

The PickCup is one of, if not the most stylish and innovative ball retrieval systems on the market. It's development has been inspired by the recent rule change which permits players to leave the flagpin in the hole cup whilst putting. The PickCup is a disc/saucer that attaches to the bottom of the flagpin to catch the ball when it falls into the hole. Therefore, golfers can simply lift the flagpin out of the hole to retrieve their golf balls. Protects the edges of golf holes. As well as saving the golfers from having to bend down to collect the ball this also helps to protect the edge of the golf hole as golfers do not need to force their hand between the hole edge and the flagpin to retrieve their ball.

Available in packs of 10 or 20.

Lightweight Hand Push Range Ball collector

The New TJ Hand Push Collector is a small and light weight golf ball picker. It is a Mini Push Picker meaning that the user manually pushes the ball collector over the balls to collect them. This differs from the more traditional push and pull modular pickers. It is great for hard to reach areas around trees, chipping areas and small practice grounds. Its lightweight design means it doesn't require a front wheel as with previous designs.
